Power point presentation program

The Chemistry department organized a PPT presentation program for B.Sc. 3rd Semester students on the **18th August, 2025**. This event was conducted under the guidance of the Principal **Dr. Sonita Satsangi**.

Introduction:

For B. Sc. 3rd Semester students in college, an assignment was given under Continuous Internal Assessment (CIA). A Power point presentation program was conducted for the students. For the given assignment, students submitted their work by handwriting it in a notebook. Additionally, the students presented the assignment topic through Power point presentation in class.

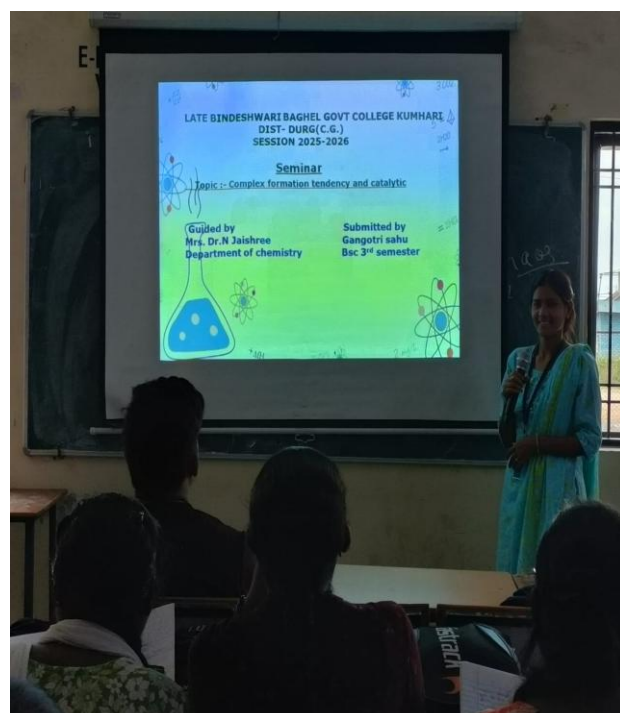

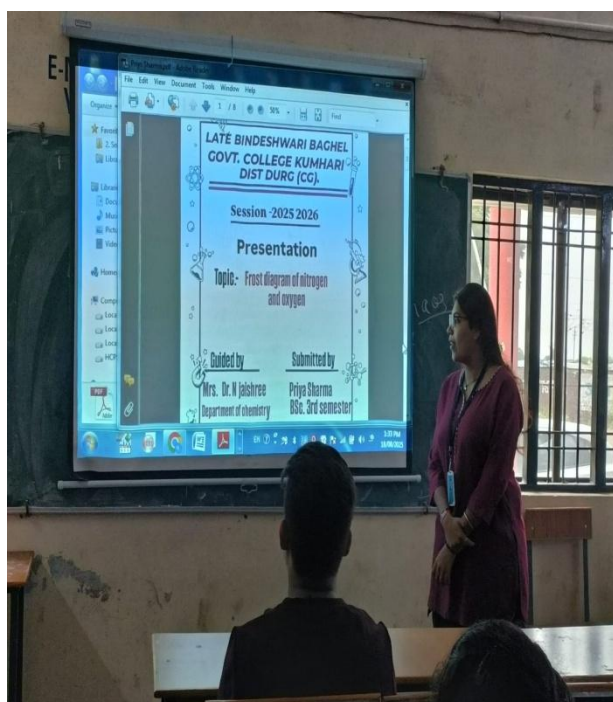

Objectives:

The objective of organizing Power point presentation is to connect students with ICT, teach them to create PPTs, and learn presentation skills. This will help students improve the following skills:

- 1. ICT Skills:** Students will learn about Information and Communication (ICT) and how to use it effectively.
- 2. Presentation Skills:** Students will learn how to present their ideas and knowledge effectively.
- 3. Subject Mastery:** Students will gain in-depth knowledge of a Power point presentation topic and learn to share it with others.

By achieving these skills, students will become more confident and proficient in using technology and presentation their ideas.
