

GUEST LECTURE

TOPIC- BEST CAREER OPTION IN THE FIELD OF SCIENCE

The Department of Physics organized a guest lecture for the BSc. Students on the topic “Best career options in the field of science” at the college. The program was Chaired by the principal, **Dr. (Smt) Sonita Satsangi**. The lecture was delivered by **Dr. Bhawana Jain**, Principal scientist Siddhachalam laboratory. The goal of this lecture was to enhance awareness among students about the various career opportunities available in science. It aims to give students insights into different science-related career paths, including the skills and education necessary for each. It will also emphasize the significance of science and its social and economic benefits.

Summary of the lecture:

Dr. Bhawana Jain discussed the best career options in science and the role of science across various industries with the students. She provided comprehensive information about several sectors, including oil and gas, healthcare technology, materials, and telecommunications etc. Additionally, she informed the students about available scholarships for education and research opportunities. Dr. Bhawana Jain also encouraged the students to work hard and improve their skills.

Acknowledgement: We would like to express our gratitude to the Dr. Bhawana Jain for accepting our invitation and presenting a lecture. I would also like to thank our principal mam **Dr. (Smt) Sonita Satsangi** for her support and guidance for organizing this program.
